**SUPPLEMENT TO REQUEST FOR CONTINUED EXAMINATION**

On January 17, 2007, the applicants mailed a Request for Continued Examination also containing a response to rejections made in the Final Office Action. The applicants have since realized that we failed to address a claim objection that was repeated from the First Office Action, namely that the listing of claims provided with the reissue application did not underline claims 21-40, which are the claims that were new relative to U. S Patent No. 6,477,113.

According to the applicant's records, this mistake was corrected with the applicants' response to the First Office Action. In that response marked November 14, 2006, the applicants believe they submitted two listings of all claims, one of which was a corrected version of the claim listing included in the original reissue application. In the event that the corrected listing was somehow not present in the transmittal received by the Office on November 16, 2006, a copy of it is enclosed herewith.

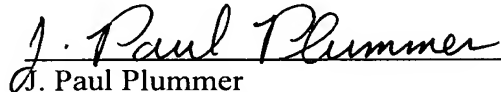

**CONCLUSION**

Applicants believe that all objections and rejections in the Final Office Action have now been addressed.

If there are any questions concerning the foregoing, please contact the undersigned at the number provided below.

Respectfully submitted,

Date: 19 January 2007
